INSTRUCTION MANUAL

KONAMI

**WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — **IMMEDIATELY** discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

**HANDLING YOUR PLAYSTATION 2 FORMAT DISC:**

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

## CHARACTERS

### Red-haired Adventurer Adol Christin

He is a young adventurer often known as "Adol the Red." He was traveling with his friend Dogi, when he ends up on a pirate ship and heads to the Great Vortex of Canaan found at the edge of the great ocean.

### Rehdan Priestess Olha

A Rehdan girl with long ears, and an animal-like furry tail. She nursed to health Adol, who had been swallowed by the Great Vortex and washed ashore. She is a priestess with white skin and has the responsibility of guiding her tribe.

### Olha's younger sister Isha

This Rehdan girl is Olha's younger sister and has white skin, also. For some reason when Adol washes ashore, she is afraid of Adol and runs away when he gets close. She is extraordinary but shy. However, she will display great courage when necessary.

## Ys — The Ark of Napishtim —

### Pirate Ladoc's daughter Terra

She was a member of a bandit gang when Adol first met her 3 years ago in Xandria. She told him "Wait for me, since I'll grow up to be a beautiful woman!" and true to her words, she matured to a desirable lady. However, her personality has not changed much.

### Brash Mercenary Geis

He is a mercenary-like youth who swings a large halberd. He and Adol cross paths numerous times during the adventure, but he (Geis) warns Adol not to "meddle in other people's business."

### Romun Commander Ernst

This young officer is a Romun commander under Admiral Agares. He is very cool headed and possesses exceptional leadership skills. He surrounds the pirate ship Adol is on, the Tres Mares, and pursues them into the Great Vortex of Canaan.

### ■ Use Tool . . . button

You can use a selected Tool by pressing the  button. Tools can also be used by going to the [Use] section of the Camp Menu and selecting them. You will not be able to enter the Camp Menu while fighting bosses, so using previously equipped Tools is the only way to use tools during these battles.

If Adol's HP reaches 0, the game is over. If you choose **Continue**, you will continue at the last point you touched a Spirit Monument or at the beginning of a current Boss battle.

## SPECIAL ATTACKS

Attacking in conjunction with the directional buttons or jumping will allow you to perform various intricate actions.

### [Upward Thrust] . . . Jump → Attack (\*While rising on a jump)

You will jump and attack overhead. This is stronger than a regular attack and is especially effective against flying enemies.

### [Downward Thrust] . . . Jump → Attack (\*While coming down from a jump)

You will attack the ground after a jump. This is especially effective in getting multiple hits, against slow moving enemies, and enemies that crowd.

### [Dash Slash] . . . Directional buttons → Neutral (Release the directional buttons) + Attack

You will dash and attack. The key to performing this attack is to work on your timing and properly release the directional buttons to neutral, then attack. If this attack hits its mark, some enemies will be knocked upward. The amount of time they are in the air will be brief, but you can get an easy hit during this time.

### [Dash Jump] . . . Dash Slash + Jump

You will jump further than with a regular jump. If you make good use of this action, you will be able to reach places you normally could not.

### [Critical] . . . Attack

This is a strong attack that occurs occasionally. You can do almost twice the damage of a regular attack. This occurrence will increase with luck.

During the course of your adventure, you will acquire **Emelas Swords**. As these swords are strengthened, you will be able to use **Sword Skills** and **Sword Magic**. Utilizing and improving your Emelas Swords will be a major point in your adventure.

## How to Strengthen your Sword

Emelas Swords are strengthened at the **Emelas Studio**, however you will need a fixed amount of **Emel** to do this. Emel can be acquired from monsters.

If you have multiple Emelas Swords you can switch between them directly in-game by pressing the **L1** button or **R1** button.

- Sword Magic . . . **○** button

Once a sword has reached a particular level, you will be able to use its Sword Magic. Use this magic by pressing the **○** button, and its effect will differ per sword.

Sword Magic can only be used if the Magic gauge is full. This gauge will fill as you attack enemies and take damage.

- Sword Skills . . . **□** button (Controls depend on the sword)

Once a sword has reached a particular level, you will be able to use its "Sword Skill". These add quite a bit more effects to the basic attack, and will differ per sword.

## [Wind Sword Skill] . . . **□** button with a fixed timing

After the normal 3 attack combo, press the **□** button with proper timing to do additional attacks. You can do 5 additional attacks. So in combination with the first 3 attacks, you can do up to 8 strikes in a row.

## [Flame Sword Skill] . . . **□** button hold

As you hold the **□** button the attack power will increase. As you hold the button, a strong multi-hit flame will shoot out. This will do great damage against slow moving enemies.

## [Thunder Sword Skill] . . . **□** button press consecutively

By repeatedly pressing the **□** button you will perform a thrusting attack and penetrate through the enemy. Just attacking will invoke this attack, so this is a very easy technique to perform.

### Check out suspicious places

If you find something suspicious, press the ☒ button. You may activate a device which will allow you to move further, or you may make a new discovery.

### Increase your luck with Accessories

Equipping some Accessories may enable you to increase Adol's luck. The higher his luck, the more often you will get a critical hit. Higher luck will also increase the percentage enemies drop items.

### Strengthen your sword

If you cannot move forward because the enemies are too strong, remember to strengthen your sword, as well as increasing Adol's level. Strengthening your sword will increase its attack power, and the sword's ability & magic will be enhanced.

### Don't forget to equip tools

Equipping tools such as recovery items onto your **Tool Holder** will enable you to use them in-game. Note that you cannot open the menu during a battle with a Boss Monster, so remember to set recovery items to your **Tool Holder** in advance.

### Downward Thrust

If it hits the target, you will get consecutive hits and damage your enemy. When many enemies attack you at once, draw them as close as possible and thrust downward when they get crowded in one area. You can defeat a great number of enemies at once.
